

Sotega FLS

Character

High quality upholstery material in soft nappa quality with a classical leather grain. Due to its natural optics and grip the material can hardly be differed from the original.

Technical Properties

Material composition:

approx:	2% PU-finish
approx:	71% PVC-compound
approx:	27% cotton fabric
weight:	740 +/- 50 gr./m ²
thickness:	1,6 +/- 0,2 mm

- long durability
- flame retardant
- resistant to disinfectants
- very tear resistant
- resistant to abrasion
- easy to clean

Application/Processing

Recommendable for all kinds of upholsteries and coverings. Particularly recommendable for the use in areas with high demands, e.g. trendy living area, public buildings and institutions.

Problem-free processing in all procedures usual in the pad industry (sewing, tacking, sticking, nailing, HF-welding).

Do not use solvent adhesives!

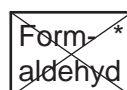

Other Instructions

Recommended Cleaning:

Simply clean with warm water and a micro fibre cloth. Please do not use solvents, bleaches, abrasives, chemical detergents or wax polishes. Ink spots have to be removed immediately, do not use care agents for leather containing oil and fat.
