</table>

**Information on the manufacturer:**

n/a

**Product information service:**

n/a

**Emergency contact number:**

n/a

### 2. Composition / information on ingredients:

**Chemical characterisation (product):**

Description: Plastic-coated textile based on PVC, plasticizer, additives, flame retardant

### 3. Possible hazards:

Description of the hazards:
Under normal conditions (at room temperature 20 – 40°C) and if used for the intended purpose, there are no hazardous substances in the sense of the ordinance regulating hazardous substances

## Particular hazards for humans and the environment:

Under normal conditions (at room temperature 20 – 40°C) and if used for the intended purpose, there are no hazardous substances in the sense of the ordinance regulating hazardous substances.

## 4. First-aid measures:

General comments: -

After skin contact: -

After ingestion:
Very improbable, consult a doctor

## 5. Fire-fighting measures:

Suitable extinguishing media: water spray, carbon dioxide (CO2), ABC powder, extinguishing foam.

Special hazards caused by the product itself, its combustion products or liberated gases:
Main products in the case of fire: carbon dioxide, carbon monoxide, soot, hydrogen chloride, toxic phosphorus compound vapours possible.

Special protective fire-fighting equipment:
Because of the decomposition products, respiratory equipment with an independent air supply is necessary.
Additional information:
Dispose of burnt residues and contaminated extinguishing water according to the local official regulations.

## 6. Measures in case of accidental release:

If used for the intended purpose (see Point 1 Application), this point does not apply.

Person-related safety measures: -

Environmental measures: -

Procedures for cleaning / clean-up: -

Additional information:
7. **Handling and storage:**

**Handling:**

If used for the intended purpose (see Point 1 Application), this point does not apply

Information on safe handling: -

Information on fire and explosion protection: -

**Storage:**

Requirements for storage rooms:
Dry rooms

Further information on storage conditions:
None

8. **Limitation of exposure and personal protective equipment:**

Additional information for the design of technical systems:
If used for the intended purpose (see Point 1 Application), this point does not apply
For another applications: please consult Heinemann Aircraft Interiors

Constituents with limit values that require monitoring at the workplace:
Not applicable

**Personal protective equipment:**

Skin protection:
During the processing appropriate clothing

Eye protection:
Not applicable

General protection and hygiene measures:
9. Physical and chemical properties:

**Appearance:**

Colour:
Article with various colours
Form:
Rolled artificial leather
Smell:
product-specific

**Data relevant to safety:**

Changes of state:
- melting range: >100°C
- decomposition temperature: >150°C

Flash point: not applicable
Density: - g / cm³ (DIN 51 757)

Solubility in water (20°C): insoluble

Vapour pressure: negligible
### 10. Stability and reactivity:
